

Policy G7 – Green Infrastructure – Existing Provision

Green Infrastructure is defined in the introduction to this chapter. Development proposals should seek to protect and enhance the existing Green Infrastructure. Development which would involve the loss of Green Infrastructure (as identified on the Policies Map) will not be permitted unless:

- a) Alternative provision of similar and/or better facilities for the community will be implemented on another site within the locality; or
- b) It can be demonstrated that the retention of the site is not required to satisfy a recreational need in the local area; and
- c) The development would not detrimentally affect the amenity value and the nature conservation value of the site.
